

# Beneficiary Impact

Cheers Drive provided beneficiaries with a friendly and reliable food delivery service, keeping them safe from Covid-19 by providing nutritious meals and much needed social interaction. This daily communication also allowed us to better understand beneficiaries' needs, creating an avenue through which welfare checks can be completed and wellbeing monitored.

**"Everything about Cheers Drive is great. It saves money, it is really convenient, it helps my routine, the service is great, and it means I get a really good hot meal every day. I am not sure how else I could do that here."**
